## *Overview*

---

### Day 1

#### **Explore:**

- Sanitation.

- Scalp Micropigmentation: Master Hairline Design & Camouflage FUE/FUT Scars. Alopecia Areata. Methods & Performance for Every Skin Type.
- Client considerations: skin theory, undertones, Fitzpatrick scale, color and method selection.
- **Master color theory:** Understand and identify colors, differentiate them, create desired shades, and work effectively with pigments.
- **Saline tattoo removal:** Learn how to lighten up or remove the tattoo.
- **Scalp Micro Healing:** The healing process for different types of skin and age. Aftercare, touch-ups, and preparation.
- **Hairline mapping:** Learn the rules and techniques for crafting personalized hairline.
- **Delve into procedural aspects:** Perfect body positioning and stretching
- **Technical skills:**
  - Practice on synthetic skin while exploring needle types, machine varieties, needle depth, blending methods, and identifying signs of improper technique.
  - Most importantly, learn the correct way to hold and operate the tattoo machine.
  - Practice all existing cosmetic tattooing techniques to find the perfect fit for your hand and temperament. I have several tattoo machines ideal for scalp micropigmentation, and we'll explore them to find the one that feels best for you.

## Day 2

- **Technique:** Practice on synthetic skin. Pressure & Patterns
- **Prepping for the Procedure**
- **Client Consultation** (Pre-procedure & Aftercare Instructions)
- **Model:** Practice on the invited model under Dasha's supervision.
- **Graduation:** The student will receive the certificate of course completion.

## Day 3

Day 3 of the training, conducted two weeks after your initial training, includes a one-hour consultation and a two-hour touch-up session.

- **Follow-up session for your model:** This session, taking place in either my studio or yours, allows us to assess your model's healed results (as we prioritize healed results over fresh tattoos). If Day 3 is held in your studio, you'll receive guidance on arranging your workspace and recommendations on your positioning near the treatment table.
- **Recommendations:** Based on this assessment, I can provide personalized recommendations for further refinement.
- **Consultation:** Have your questions ready for me. I'm happy to answer anything.

## Day 4

Day 3 of the training, conducted two weeks after your initial training, includes a one-hour consultation and a two-hour touch-up session.

- **Follow-up session for your model:** This session, taking place in either my studio or yours, allows us to assess your model's healed results (as we prioritize healed results over fresh

tattoos). If Day 3 is held in your studio, you'll receive guidance on arranging your workspace and recommendations on your positioning near the treatment table.

- **Recommendations:** Based on this assessment, I can provide personalized recommendations for further refinement.
- **Consultation:** Have your questions ready for me. I'm happy to answer anything.

## Day 5

As part of your training program, you will have the opportunity to observe a two-hour session where Dasha performs SMP on a client. This will give you a firsthand look at the procedure. Following the session, there will be a one-hour consultation to answer all your questions.

## What`s included

<i>Item Description</i>	<i>Amount</i>
Student Manual	I personalize each course to the individual needs of each student, knowing your previous experience will help me prepare a tailored student manual and class schedule for you.
